SUMMARY

Integrated M.Tech student passionate about building user-centric products that solve real-world problems. Experienced leading cross-functional teams, managing large-scale university initiatives, and driving products from ideation to execution through product strategy, feature prioritization, stakeholder collaboration, and iterative problem solving.

EDUCATION

Vellore Institute of Technology

2022 – 2027 (Expected)

Integrated M.Tech in Artificial Intelligence

CGPA: 8.12

- Relevant Coursework: Product Design, Human Computer Interaction, Design Thinking, Data Analytics, Machine Learning, Probability & Statistics, Database Management Systems

SKILLS

Product: Product Strategy, Product Thinking, Feature Prioritization, Roadmapping, User Journey Mapping, MVP Planning, Product Requirement Documentation (PRD), Competitive Analysis

Leadership: Stakeholder Management, Cross-functional Collaboration, Team Leadership, Event Operations, Project Management, Agile

Business & Analytics: Market Research, Data Analysis, Google Sheets, Microsoft Excel, SQL, Presentation, Decision Making, Power BI

Tools: Figma, Notion, Google Workspace, Microsoft Office, Git

EXPERIENCE & LEADERSHIP

Business Intelligence & Data Analytics Intern

May 2024 – July 2024

Elevate Labs (Remote)

- Analyzed 50,000+ business records and built interactive Tableau dashboards to uncover customer trends, monitor KPIs, and support data-driven business decisions.
- Translated complex datasets into actionable insights through reports and visualizations, enabling stakeholders to identify opportunities and improve decision making.

Operational Manager

May 2025 – Apr 2026

AI Club, VIT Bhopal

- Led cross-functional teams to organize workshops, competitions, and flagship events including **AI Conclave'24**, coordinating logistics, marketing, sponsors, faculty, and volunteers for seamless execution.
- Established structured planning workflows, delegated responsibilities, and managed stakeholder communication to improve operational efficiency and deliver high-quality participant experiences.

Event Lead – Paper Trading Competition

May 2025

Entrepreneurship Cell (E-Cell), VIT Bhopal

- Owned end-to-end execution of a university-wide competition involving 26 offline teams, 30+ online participants, and a 10,000 prize pool by managing planning, registrations, and operations.
- Designed participant workflows, collaborated with cross-functional teams, and resolved operational challenges to ensure a smooth event experience from launch to completion.

PRODUCT EXPERIENCE

Sanjeevani AI (Mahakumbh Expert Hackathon) | 🔗 Link

May 2026

- Led product strategy for an AI-powered emergency response platform built for Mahakumbh, defining user journeys for citizens, responders, and command center operators to streamline incident reporting and emergency coordination.
- Prioritized platform features including multimodal SOS reporting, real-time dispatch tracking, resource allocation, and operational dashboards by balancing user needs, emergency workflows, and implementation feasibility.
- Collaborated with a multidisciplinary team from ideation to product delivery, securing **6th place among 500+ participants** at the Mahakumbh Expert Hackathon through iterative problem solving and product execution.

Smart Vision Glasses for Visually Impaired Users

Aug 2025

- Designed an assistive product focused on improving independent navigation for visually impaired users through accessibility-first product thinking and user-centric feature prioritization.

- Defined the MVP by prioritizing object detection, obstacle awareness, facial recognition, navigation assistance, and scene understanding while balancing usability and technical feasibility.
- Coordinated development planning, feature breakdown, and implementation strategy to align the team on product goals and deliver a scalable assistive solution.

Assured Contract Farming System (SIH'24 Internal Round)

Nov 2024

- Conceptualized a digital platform addressing trust and transparency challenges between farmers and buyers through structured contract farming workflows and digital agreements.
- Designed stakeholder journeys for farmers, buyers, and administrators, prioritizing features such as contract management, crop tracking, payment transparency, and dispute resolution.
- Collaborated with a multidisciplinary team to define product scope and present the solution during the Smart India Hackathon 2024 Internal Round.

LEADERSHIP & EXTRACURRICULAR

Operational Manager – AI Club, VIT

May 2025 – Apr 2026

- Oversaw club operations, coordinated cross-functional teams, and executed workshops, competitions, and technical initiatives.

Smart India Hackathon (SIH) – Internal Round Qualifier

Aug 2024 – Nov 2024

- Qualified through the internal selection round among 500+ competing teams at VIT.
